

BOX INSPIRATION #1

Bunded Floor Chemical Storage Container

Welcome to the first issue of Box Inspiration, your weekly dose of fresh container conversion ideas. This week we show you how we converted a 10ft container into a chemical store container.

A small high quality unit was imperative for our customer, and as a result we built a structure to suit. From the ground up the unit was custom made, along with all the relevant apertures cut precisely as per the drawings and sketches agreed between the customer and ourselves.
