

BOX INSPIRATION #13

Custom Built Containers

Welcome to the 13th issue of Box Inspiration, your weekly dose of fresh container conversion ideas. This week we are talking about custom built containers.

Containers are extremely flexible and can be used for almost anything with a little imagination and modification. We can utilise our standard containers to create any size imaginable. You may require something a little bigger than 20ft, but may not have room for a 40ft, or you may need something smaller than a 10ft. Whatever your requirement, we can assist.

Bespoke size containers are used for storage purposes, as well as for conversion use. For example, we have built 16ft catering containers, 30ft fuel stores, 16.5ft generator housings, 24ft offices and canteens, 12ft pump houses and many more. Some storage examples are included below:

- [12ft Council Storage Container >>](#)
- [14ft Garden Shed Storage Container >>](#)
- [20ft x 10ft Golf Buggy Storage Container >>](#)

GET THE LOOK!

Speak to our friendly experts today, no job is too big or too small and we can build to your completely bespoke specification. We provide containers in many different sizes including [10ft](#), [20ft](#) and [40ft](#). If you require something else, call us today on 0333 600 6260. We have container stocks all over the UK and deliver nationwide.
