

## BOX INSPIRATION #8

### Sliding, Folding and Standard Doors

Welcome to the eighth issue of Box Inspiration, your weekly dose of fresh container conversion ideas. This week we are talking about installing doors into containers.

Doors are ideal if you regularly use your container and require easy access. They can also add to the overall aesthetics of the container. We will work with you to decide where best to place the doors and can provide a completely bespoke solution such as patio, folding or sliding doors. However, if you require something a little more standard **personnel doors** are perfect.
